I benefit greatly by having this service that I pay for and want. It is great we now have the freedom to choose what we want to listen to rather than have companies like Clear Channel and others like them control what we listen to. When I woke up this morning I thought I was in the land of freedom and choice but I see as time goes on we are no longer allowed choices but instead are controlled by those with the money and power that only want to shove their ideas down our thoughts.

I hope XM continues to grow and in doing so it will send a very clear message to the other radio companies we do not have to take what you want to dish out.

A satisfied XM listener.
